Product Benefits

- ✓ Comfort lenses for migraine-related sensitivity to light
- ✓ Migraine is often accompanied by an acute sensitivity to light
- ✓ acunis® lenses filter out that component of light that is perceived as unpleasant
- ✓ Also available in your individual prescription for any frame

Product Properties

- Protecting against unpleasant glare
- Reducing in particular the transmission of the wavelength range around 484 nm, which is perceived as particularly unpleasant in cases of migraine-induced light sensitivity
- In contrast to conventional sunglasses, your eyes adjust less to “seeing in the dark” with acunis lenses and are less dazzled when you take your glasses off
- Available in three tint levels – 25%, 50% and 75% – depending on the intended use and the intensity of glare experienced
- Protect against UV radiation and can be used when driving according to DIN EN ISO 12312-1.
- Available in various frame models and sizes or as a clip-on.
- Also available as an XL frame to put over your own prescription frame. Special anti-glare frames with an extra deep rim at the top and wide temples with side windows.
- Supplied with matching case.
- The metal frames small and large are also available unglazed for glazing with individual strengths.

- ✓ Comfort lenses for migraine-related sensitivity to light
- ✓ Migraine is often accompanied by an acute sensitivity to light
- ✓ acunis® lenses filter out that component of light that is perceived as unpleasant
- ✓ Also available in your individual prescription for any frame

Product Properties

- Protecting against unpleasant glare
- Reducing in particular the transmission of the wavelength range around 484 nm, which is perceived as particularly unpleasant in cases of migraine-induced light sensitivity
- In contrast to conventional sunglasses, your eyes adjust less to “seeing in the dark” with acunis lenses and are less dazzled when you take your glasses off
- Available in three tint levels – 25%, 50% and 75% – depending on the intended use and the intensity of glare experienced
- Protect against UV radiation and can be used when driving according to DIN EN ISO 12312-1.

ambelis® 85 Drive

ART. NR. 1666285

Product Benefits

- ✓ Improved colour sensitivity and minimisation of glare by blocking short-wave, high energy light components in the blue part of the spectrum
- ✓ Available in the am Drive filter variant suitable for driving or in the am Classic variant
- ✓ Available in tint levels am15, am65, am85, am50-15, am75P (polarising), am active (photochromic only in filter variant am Classic)
- ✓ Available in various frame models or as clip-ons – a suitable case is always included
- ✓ Spectacle frames with extra deep edge to block incident light from above
- ✓ Widely set temple with transparent side glare guard allows sideways orientation
- ✓ Side Ventilation slot between temple and middle section prevents fogging of the lenses
- ✓ 100 % UV protection and up to 99 % blue absorption

Product Properties

- All-round protection for the eyes against the harmful rays of the sun and against unpleasant glare
- Improved contrast vision
- Attractive design that makes ambelis look like Sunglasses
- suitable for driving in accordance to DIN EN ISO 12312-1 (not suitable for driving at night)

ART. NR. 1666265

Product Benefits

- ✓ Improved colour sensitivity and minimisation of glare by blocking short-wave, high energy light components in the blue part of the spectrum
- ✓ Available in the am Drive filter variant suitable for driving or in the am Classic variant
- ✓ Available in tint levels am15, am65, am85, am50-15, am75P (polarising), am active (photochromic only in filter variant am Classic)
- ✓ Available in various frame models or as clip-ons – a suitable case is always included
- ✓ Spectacle frames with extra deep edge to block incident light from above
- ✓ Widely set temple with transparent side glare guard allows sideways orientation
- ✓ Side Ventilation slot between temple and middle section prevents fogging of the lenses
- ✓ 100 % UV protection and up to 99 % blue absorption

Product Properties

- All-round protection for the eyes against the harmful rays of the sun and against unpleasant glare
- Improved contrast vision
- Attractive design that makes ambelis look like Sunglasses
- suitable for driving in accordance to DIN EN ISO 12312-1 (not suitable for driving at night)

ART. NR. 16618550

Product Benefits

- ✓ All-round protection for the eyes against the harmful rays of the sun and against unpleasant glare.
- ✓ Improved contrast vision.
- ✓ Also available in your individual prescription for any frame

Product Properties

- Improved contrast vision and minimisation of glare by blocking short-wave, energy-rich light components.
- Cut-off filters 450 nm, 511 nm, 527 nm, 550 nm, also available in polarised options.
- Glasses made of particularly lightweight cr 39-plastic for a distortion-free image.
- Available in two frame sizes or as clip-ons, including case.
- Supplied in hard case.
- Clip-ons supplied in soft case with belt clip.
- 100% UV protection.

Technical data

Cut-off filter clip-ons

Product Benefits

- ✓ For reducing glare in the case of increased glare sensitivity.
- ✓ For contrast enhancement.

Product Properties

- Contrast enhanced vision and reduction in glare through absorption of the short-wave, energy-rich ultraviolet and blue components of the spectrum.
- The use of cut-off filters is recommended in particular for conditions such as retinitis pigmentosa, macular degeneration, albinism, optic atrophy, aphakia.
- The contrast-enhancing cut-off filter clip-ons are attached to the correction frame and can simply be flipped up where necessary.
- Glasses made of particularly lightweight cr 39-plastic for a distortion-free image.
- Optical efficiency: ± 0 dpt.
- Available with 450 nm, 511 nm, 527 nm, 550 nm cut-off, with or without polarisation.
- The lenses have screw attachment, they are not riveted.
- An ophthalmologic prescription is required before health insurance will meet the costs.
- Supplied with soft case.
- Display and Optoform equipment available.

Polarised clip-on sunglasses

Product Benefits

- ✓ Polarisation makes them particularly suitable for watersports (sailing, fishing).
- ✓ The quick solution for clipping onto eyewear frame.
- ✓ Ideal when you don't want to wear a separate pair of sunglasses.

Product Properties

- UV 400 – 100% UV protection.
- Polarising by tri-acetat rigid films.
- High quality design.
- Supplied with soft case.
- Suitable for wearing whilst driving, but not for driving at night.
